

Women's Health Services Call Coverage

The doctors of WHS use a call rotation for delivery of all obstetrical patients. There are six doctors who cover call for all ob patients. The doctor who is on call takes care of all deliveries during his/her shift. The doctor who cares for you during your prenatal visits may not be the doctor who delivers your baby (even if it is during the weekday).

One of the following doctors will deliver your baby:

Dr. Joan Bergstrom
Dr. Dawnette Pepler
Dr. Glenn Saunders
